Ø=Üp Couple / C	Self Access Request	Super Admin Clearance	Self via Email OTP or Super Admin Ticket	/customer/*

Password Recovery Architecture

- Method A (6-Digit Email OTP Verification): User enters email -> Secure 6-digit OTP is dispatched -> Live 60s countdown timer -> User verifies code and sets new password.
- Method B (Emergency Super Admin Ticket): If email is lost, user clicks "Request Super Admin Reset". The ticket appears in Super Admin Approvals where Super Admin resets credentials in 1 click.
- Master User Password Directory: Super Admin can search ANY user (Client, HR, Photographer) and override their password directly or 1-click generate a strong random password.
